COURSE FEES

Tuition fees:

Full-time: £9,000 (2023-2024) Part-time: £4,500 (2023-2024)

We set our course fees annually. As students pay a fee for each year of their course, the fees set for future academic years may be higher than those set in the 2023/2024 academic year.

For each future academic year of your course of study, your fees may be subject to review and increase on a basis in line with the Retail Prices Index (RPI) plus 3%. RPI is a measure of inflation published monthly by the Office for National Statistics which measures the changes from month to month in the cost of a representative sample of retail goods and services bought by consumers within the UK. This means that your course fees will not be increased each year by more than RPI + 3% from the previous year's fees and will not ever exceed the maximum amount that the government allows higher education institutions to charge students in the related academic year.
